ONE FULL QUART OF

WHISKEY FREE

We know the meaning of words and will do as we say. We claim to be the lowest-priced Whiskey House and the Largest Mail Order Whiskey Concern in the South. All the North Carolina Whiskey we sell is good—there's no bad. People here wouldn't adulterate if they knew how—they are too honest! Most whiskey sellers are noted for mixing, blending and watering. We sell more genuine old whiskey and less water than any known competitor. "Casper's 11 Year Old" Whiskey is a Liquid Joy! It's made by honest people in the mountains of North Carolina, in old-style copper stills, just as it was made by our grandfathers. First-rate whiskey is sold at $5.00 to $6.00 per gallon, but it's not any better than "Casper's 11 Year Old." It must please or we will buy it back. We have a capital of $500,000, and the Peoples' National Bank and the Piedmont Savings Bank of this city will tell you our word is good. To introduce this old, honest whiskey, we offer four Full Quarts of "Casper's 11 Year Old"—two sample bottles, one 15 year old—a corkscrew and a drinking glass—all for $2.95. If $5.90 is sent we will double the above and put in free One Full Quart Extra. We have some of this whiskey only 7 years old, and will send five-gallon keg for $10 or will furnish twenty full quart bottles on receipt of $11 and give free corkscrews, drinking glasses and samples, making this whiskey cost less than $2.20 per gallon delivered. We ship in plain boxes with no marks to indicate contents, and Prepay all Express. Buyers West of Texas, Kansas, Nebraska and Dakota must add 20 cents per quart extra.

THE CASPER CO. (Inc.)
Casper Bldg. WINSTON-SALEM, N. C.

[EDITOR'S NOTE]—Before permitting the above whiskey advertisement to appear in our columns, we investigated the firm through their Bankers. We cheerfully endorse them, and friends in need of pure whiskies for medical use need not hesitate to order sample lot.

STATE COLLEGE OF KENTUCKY,

Lexington, - - Kentucky.

The Agricultural and Mechanical (State College) of Kentucky offers the following courses of study, viz: Agricultural, horticultural, chemical, biological mathematical, physical, normal school, classical, mechanical engineering, electrical engineering, civil engineering, mining engineering, each of which extends over four years and leads to a degree. Post graduate studies are also provided, leading to a master's degree. Each course of study is organized under a separate faculty. The general faculty number nearly fifty professors and instructors.

County appointees receive tuition, room rent in dormitories, fuel and light, and if they remain ten months, traveling expenses.

The laboratories and museums are large, well equipped, comprehensive and modern.

The Legislature appropriated $60,000 for a college home for young women, and $30,000 for drill hall and gymnasium for men. Both buildings are completed and in use. Military tactics and science are fully provided for as required by Congress.

Graduates from the several courses of study readily find excellent positions and liberal remuneration. The demand is largely in excess of the ability of the college to supply. Last year the matriculation was 750.

Specialists with the necessary number of assistants have charge of each department of natural science. Summer schools are provided for pedagogy, engineering and instruction in science.

The State College of Kentucky, though bearing hitherto the title of "college," is the only institution in the Commonwealth doing in any proper sense university work.

The completion of the college home for young women provides facilities for good board and lodging. It is equipped with all modern conveniences, including bath rooms and room for physical culture. It is heated by steam and lighted by electricity.

An opportunity is thus afforded to them of a thorough education in classics, modern languages, literature, science, mathematics, logic, metaphysics, history and political economy. No other institution in the State offers advantages for education of women at all comparable to those offered by the State College of Kentucky.

Gets Good Position.

W. F. Schooler, formerly in the revenue service in Mason county, an ex-newspaper man, was in Lexington Saturday en route to Washington City, where he was called by a telegram notifiing him of his appointment to a job in the government printing office. He was accompanied as far as this city by Mrs. Schooler.—Lexington Leader.

It will be remembered that Mr. Schooler was formerly foreman of the Hustler for some time, and he has many friends here who will be glad to hear of his good fortune.—Jackson Hustler.

Many citizens of our town will remember that Mr. Schooler was attache of THE HERALD office during the fall of the World's Fair at Chicago and the Hazel Green Fair. That was before he married, and since he became a Benedict he has "swung around the circle" so much that we could not keep track of him, but here's hoping he may find in the Washington job a sit congenial to his taste and settle down. Billy is a clever boy.

And This Was Not Looked For.

When William Schooler appeared in the Police Court this morning to answer a charge of vagrancy his condition was that of a man whose nerves needed treatment.

"Schooler has been on a drunk several days" Policeman Newkirk stated. "He was put out of two saloons near North Capital and H streets, and then he came down to Pennsylvania avenue. He held-up members of Congress and tried to get money from them."

"Did he hold-up anybody else?" the court inquired.

"Yes, indeed," the officer replied "he stopped all comers and did not play favorites."

"Judge, your honor," said the prisoner, "I hope you will let me go this time."

"For what?" the court asked. "Do you want to get drunk again?"

"No, sir," said Schooler "I want to go home."

"Where is your home?"

"I'm from Kentucky."

"From the blue grass region, added the court, "the country of fine horses, pretty women and good whiskey."

"That's right, your honor," the prisoner said, "and I'll promise you that this is the last drunk for Schooler."

"I'm glad to hear you say that," Judge Scott told him, "and I am going to assist you by sending you to a place where you will have to abstain from whiskey for one month."—Washington (D.C.) Star Jan. 18th.

Carl Heintz, of No. 6 Wall street, New York, will send free to rheumatism sufferers the prescription that cured him after many years of suffering.

A Living Monument.

If we were to assemble all those who have been cured of heart disease by Dr. Miles' Heart Cure, and who would to-day be in their graves had not Dr. Miles' been successful in perfecting this wonderful heart specific, they would populate a large city.

What a remarkable record—a breathing, thinking, moving monument, composed of human lives,—that for which every other earthly possession is sacrificed.

The Miles Medical Co. receive thousands of letters from these people like the following:

"I feel indebted to the Dr. Miles' Heart Cure for my life. I desire to call the attention of others suffering as I did to this remarkable remedy for the heart. For a long time I had suffered from shortness of breath after any little exertion, palpitation of the heart; and at times terrible pain in the region of the heart, so serious that I feared that I would some time drop dead upon the street. One day I read one of your circulars, and immediately went to my druggist and purchased two bottles of the Heart Cure, and took it according to directions, with the result that I am entirely cured. Since then I never miss an opportunity to recommend this remedy to my friends who have heart trouble; in fact I am a traveling advertisment, for I am widely known in this locality."

Manager of Lebanon Democrat, Nashville, Tenn.

A Formula for Farmers.

The following rule for finding the contents of haystacks is published in a North Dakota paper: "Take a tape line and measure the width, length and distance over the stack; add the width and over, divide this sum by four; square the result; multiply this by the length and divide by 422 to reduce to tons. New Mexico has a statuary law regulating the measurement in hay stacks. It is in part as follows: Measure the stack for length, width and 'over.' To get the 'over' take a tape line over the stack at an average place from ground to ground and drawing it tightly; multiply the width by the 'over' and divide this result by four; multiply result of the division by the length for approximate cubical contents of stack. To reduce to tons for hay that has stood in the stack for less then 20 days, divide cubical contents by 422; for more than 60 days, divide cubical contents by 880.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer $100 for any case that it fails to cure. Send for list of testimonials. Address,

—o—

What has become of all the correspondents? Let us all wake up and give the news.

Rev. Henry Dunegan has moved into the house vacated by Mort Rose.

Mrs. Nannie Stamper returned on Monday from Camptan, where she had been attending court.

J. E. Miller and wife were visiting Cesar Linden, on Gillmore, on Sunday.

Clay Rose has been confined to his home with fever. Dr. Wise is attending him.

Mrs. D. C. Miller has been quite sick the past week, but we are proud to say is at the store again.

J. B. Little has been away some time, but return d Saturday and left for Campton soon afterward.

Mrs. Allison was in town shopping Wednesday and was heard to say Miller & Cecil sell the cheapest and best goods known.

The protracted meeting still continues conducted by Revs. Leander Lacy, J. E. Morris and K. K. Spencer.

Miller & Cecil say advertising pays. Sales on all lines last week were very satisfactory, and this is partlo because they give patrons jobbers' prices. From factory to consumer enables them to do this.

KENTUCKY KERNELS

Rue Christie s store and stock of goods were burned at Camp Knox on Thursday night.

Frank Timberlake was crushed to death at Lexington by a pile of lumber falling upon him.

Cynthiana is to have new Methodist Church to cost $14,700. J. R. Poindexter has the contract.

The Brown-Brigsby Co., of Jefferson county, filed articles of incorporation at Frankfort Friday.

Mike Furlong, collector for the Lexington Brewery, short in his accounts thousands of dollars, has skipped out.

Ten linemen working for the East Tennessee Company struck at Lexington Friday rather than work with negroes.

The Board of Supervisors of Bourbon county, after a two weeks' session raised the assessed valuation of the county $210,000.

Charley Norris, a grocer and saloon keeper, of Lexington, assigned Friday. This is the fruit of being known as "Clever Charley."

A postmortem on a cow that died near Lexington disclosed the presence of 18 inches of wire, 23 nails and a snake in her stomach.

Mrs. Mary R. McGuier, of Mt. Sterling, has offered a reward of $500 to any person who finds a will made by her late husband, Presley Maquier.

Scarlet fever has broken out at Versailles, and while a general epidemic is not feared, precautionary measures having been taken, some alarm is necessarily felt.

Charles T. Whaley, aged 85, is dead at the home of his son-in-law, Eugene Grady, at Cynthiana. For many years the deceased was a farmer and raiser of fine stock.

The fair committee of the Elks' Club at Lexington last week reported in favor of having a fair, and a committee to outline the plan in detail. The Elks have held several fairs in past years with much success.

The Licking River Lumber Co., of Farmers, has bought of the Yale Lumber Co., of Yale, Bath county, all of its property, 12,000 acres of timber land, a fine mill plant and 20,000,000 feet of poplar and oak timber. About $300,000,000 passed in the deal.

The better class of negroes in Lexington, incensed at the bfutal crimes committed by Pearsall on Friday night, held meetings on Monday appealing to the better citizens of their race to work hand in hand with the white people for good order and harmony of the two races.

Jim Piersall, a negro, entered two houses at Lexington Friday morning last for the purpose of robbery, shot one man and beat up two women, beside commiting another crime. Detectives caught him early that morning, and fearing a lynching should his crimes become known, they hurried him to Louisville.

A Grim Tragedy

Is daily enacted, in thousands of homes, as death claims, in each one, another victim of Consumption or Pneumonia. But when Coughs and Colds are properly treated, the tragedy is averted. F. G. Huntley, of Oaklandon, Ind., writes: "My wife had the consumption, and three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption, Coughs and Colds, which cured her, and today she is well and strong." It kills the germs of all diseases. One dose relieves. Guaranteed at 50c. and $1.00 by all druggists. Trial bottle free.

The readable novelette in Lippincott's Magazine for February comes from the favorite pen of Frederick Reddale, who is much liked for his adventurous stories. It is called "A Transaction in Rubies."

Curtis B. Rose, district manager of the State Mutual Assurance Association of Worcester, Mass., now located at Jackson, came down last week to spend a few days with his parents, John M. Rose and wife, returning home Saturday.

Those of our readers who contemplate locating in the blue grass region should read the ad in this paper headed "Farm for Sale." It is well located and about the size for which we have had many inquiries lately. But read the ad and write to Jas. H. Thompson, Winchester.

One of the most interesting of towns over which floats the stars and stripes is Nome, Alaska Its development has been wonderful, and the tale of its progress is told by Alfred H. Dunham, Chief Game Warden of Alaska, in the February "Cosmopolitan." Some interesting pictures of the mushroom city tell the story almost as well as does the text.

The talk about town now is that our streets are to be lighted up by natural gas. The Hazel Green Oil and Gas Company agrees to furnish the town with the gas for 12 months for a number of lights, say twelve, free of all cost, provided the town will furnish the posts and other appurtenances. After that the town is to get gas at a nominal price. The deal has not yet been consummated but soon will be.

The editor of this paper has been wrestling with a very severe cold for about ten days or two weeks, and been unable to get about after the news. In addition all the mechanical work has devolved upon him and in his condition of health it is more than he is able to cope with successfully. Unless his condition materially improves or he succeeds in getting help meantime the paper may not be printed next week. We hope it will be, but for fear it is not we make this statement now so subscribers may not be disappointed.

Rev. Jeff Edwards, who has been preaching God's Gospel for a number of years, and who was last week fined $50 and sent to jail to stay the fine out at the expense of the county, sent home for his Bible and hymn book, possibly with the intention of verifying the poet's plea that—

"While the lamp holds out to burn
The vilest sinner may return."

Let good people, at least, hope this was his laudable intention.

The dedication of the dormitory on Thursday last and the entertainment at Pearre Hall that night "The Glug Family," were pronounced successes. The dormitory will hereafter be known as the Sarah E. Yancey Girls' Home, in honor of the Treasurer of the State C. W. B. M. Owing to sickness the editor could not attend either the exercises or the entertainment.

Born, to the wife of John D. Young, Jr., of Chicago, (nee Miss Florence Stevens, of Mt. Sterling), a daughter. Many of our citizens will remember this young mother who, during her girlhood used to visit Mrs. Belle Godsey, to whom she was related.

"Chronic cases" that's what the doctors call them, which in common English means—long sickness.

To stop the continued loss of flesh they need Scott's Emulsion. For the feeling of weakness they need Scott's Emulsion.

It makes new flesh and gives new life to the weak system.

Scott's Emulsion gets thin and weak persons out of the rut. It makes new, rich blood, strengthens the nerves and gives appetite for ordinary food.

Scott's Emulsion can be taken as long as sickness lasts and do good all the time.

There's new strength and flesh in every dose.

We will be glad to send you a few doses free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

The editor of this paper will endorse the honesty of the following paid local:

In October, 1889, I, C. S. Mick, known as "KE-NO-TA, THE INDIAN MEDICINE MAN," came to Hazel Green and stayed two weeks, giving free shows every night, and selling my own make of medicine. The remedies were good, and did good for all my customers, and many of your people followed me to Campton, Jackson and Beattyville to get medicines that would cure them, and all were loud in their praise of the wonderful curative effects of the medicines they bought

I did more real good for my mountain customers than any other medicine man that has ever visited your community and I take this methed to inform you that I am still alive, hale and hearty, and although nearly 68 years of age, feel like a youngster of 35. Myself and family (wife and two boys) live at Rock Island, Illinois, where I have my office, from which I ship daily to all parts of the United States the medicines that I make and have advertised for nearly fifty years.

My Medicines Wont Raise the Dead,

But I still offer ONE HUNDRED DOLLARS REWARD for any of the following diseases that the use of my remedies fail to benefit and CURE TO STAY CURED—Consumption, Asthma, Rheumatism, Rupture, Tape Worm, Lost Manhood, Fits, Bed Wetting Habit, any and all Female diseases, Spinal Disease, Lumbago, Kidney Disease, Catarrh of Head, Chronic Constipation, Indigestion, Stomach Trouble, Old Sores, Piles, Scrofula, Worst Blood Diseases, Necrosis or rotting of the bone, Big Neck, White Swellings, Nervousness, Heart Palpitation, Liver Troubles, Dyspepsia, Varicocele, Nervous Disability, any contracted disease, all diseases of men, lack of force manly waste, skin diseases, Eczema, Birth Marks, Old Sores, Fever Sores, Sores in Scalp, and many others.

THE SECRET OF MY SUCCESS is in the fact that I make my medicine out of Herbs, Barks, Berries, Gums, Leaves and Plants that I gather in the woods where they grow, and I am the only living white man that does this, and I make ONE MEDICINE for ONE DISEASE. On this plan my remedies do good for each person I deal with. Now, if you have chronic disease of any kind that your resident doctors have not and can not cure, write to me, describe your feelings and symptoms in your own way, name the true date and month of your birth, that I may know your age, inclose a 2-cent stamp for reply, and I will answer and tell just what I would have one of my own family use if either of them were similarly afflicted, and my price for the medicine. Then if you want the medicines write me, and put the price in the letter; register your letter at the postoffice, and on receipt of same here, I will ship you the very best medicines that can be had on earth, with full and complete directions how to use them, and when followed, a Positive Cure will result. DO NOT DELAY WRITING TO ME, as life is uncertain at my age, and to get my medicines YOU MUST WRITE TO ME WHILE I AM ALIVE. Address all mail like this:

C. S. MICK,
THE MEDICINE MAN,
ROCK ISLAND, ILLINOIS.

SPECIAL DIRECTIONS.—You can cut out the above printed address and paste it on your envelope, and it will be sure to reach me. (White of an egg makes a good paste).

EXTRA SPECIAL.—Be sure and tell me exactly how to direct my letter to you so as to reach you—WRITE YOUR OWN NAME PLAIN AND DISTINCT. If you get mail by rural free delivery, TELL ME SO, and give the number of the route, and you will quickly hear from me. All letters are strictly confidential, and are opened by me in person. So talk plain and tell me all. I can send you a remedy for any ailment, NO MATTER WHAT IT IS, and it will work like a charm. If you, reader, are not afflicted in any way, wont you please call the attention of some suffering relative or friend to this notice, so that they can regain their health? By doing this you will be doing them a kindness, and me a favor at the same time. My prices are very low. To illustrate: I will send by mail 3 boxes of my Indian Herbs for Constipation, Indigestion and Liver and Stomach disorders, for only One Dollar. Each box is worth that. Always send money with your order.

John D. Henry, of Grassy Creek, has sold his stock of goods near the Chapel to Jim Henry Day, the sale being based on a 5% discount from cost and carriage. Invoicing began Monday. Mr. Day was also the purchaser of Joe Stamper's stock of goods, but we did not learn the terms. Mr. Day will occupy the old Stamper stand, to which he will remove the stock he bought of Mr. Henry.

Incidentally it is learned that Dr. John A. Taulbee, a long-time resident of this place and now at Jackson, contemplates locating in Oklahoma Territory. Should he do so it will be greatly to the regret of host of friends hereabouts, but he was out there once during a cyclone, and from his description of that occasion we judge that he would hesitate about tackling it again.

W. F. Horton has sold his store and stock of goods at Camargo to Jee Trimble. Mr. Horton will move to the farm he recently purchased of Dr. J. T. Ricketts. Frank Horton is a brother-in-law to Mrs. F. N. Day, and he and his family visit here frequently.

Spoiled Her Beauty.
Harriet Howard, of 209 W. 34th St., New York, at one time had her beauty spoiled with skin trouble. She writes: "I had Salt Rheum or Eczema for years, but nothing would cure it, until I used Bucklen's Arnica Salve." A quick and sure healer for cuts, burns and sores. 25c., at all druggists.

RECORD BREAKER

Was Past Year in Oil Production of the State, and 1,000,000 Barrels Were Secured.

A Barbourville dispatch to the Louisville Post of Jan. 4, says:

"Figures on the production of crude oil in the Kentucky fields for the past year shows runs amounting to 1,000,000 barrels. This amount was produced by the Wayne, Cumberland, Knox, Whitley, Estill, Wolfe, Bath, Rowan, Knott and Floyd counties. The entire output, with the exception of 90,000 barrels, consists of the high grade product, similar to that found in Pennsylvania and West Virginia, and commands the highest price. The Bath fields produced the heavy grade oil, which commands a lesser price.

During the past few months pipe line extensions have been constructed into Cumberland county, in the southern part of the State, and into Wolfe county, in the central part. A line is also nearing completion into Fentress county, Tenn. Along the route of these extensions activity will prevail to the greatest extent during the coming year.

At present Wayne county leads in activity, with Cumberland and Wolfe counties close seconds. Wayne produces more than half of the output of the State, and about one hundred concerns have been engaged in development in that field during the past year.

FEMALE WEAKNESS

343 1-2 Congress St.
PORTLAND, MAINE, Oct. 17, 1903.

I consider Wine of Cardui superior to any doctor's medicine I ever used and I know whereof I speak. I suffered for nine months with suppressed menstruation which completely prostrated me. Pains would shoot through my back and sides and I would have blinding headaches. My limbs would swell up and I would feel so weak I could not stand up. I naturally felt discouraged for I seemed to be beyond the help of physicians, but Wine of Cardui came as a God-send to me. I felt a change for the better within a week. After nineteen days treatment I menstruated without suffering the agonies I usually did and soon became regular and without pain. Wine of Cardui is simply wonderful and I wish that all suffering women knew of its good qualities.

Wilhelmina Snow
Treasurer, Portland Economic League

Periodical headaches tell of female weakness. Wine of Cardui cures permanently nineteen out of every twenty cases of irregular menses, bearing down pains or any female weakness. If you are discouraged and doctors have failed, that is the best reason in the world you should try Wine of Cardui now. Remember that headaches mean female weakness. Secure a $1.00 bottle of Wine of Cardui today.

THE COFFIN HANDKERCHIEF.

Family Relic That Has Been Traveling About the World for Fifteen Years.

The "Coffin handkerchief," which for 15 years has been a continuous traveler around the world, is again in Newcastle, Ind., having been received by Harry T. Coffin, a business man.

Fifteen years ago it came into the possession of the family and was started from one member of the family to another, each in turn "working it off" on some other member without his knowledge, says the Chicago Tribune. In this manner it has been kept on the go for 15 years and has been to Manila, Porto Rico, England and all points in the United States.

During the Coffin family reunion in Newcastle last summer it was slipped into the trunk of a New York member of the family, who several weeks later discovered it and sent it on, with the result that it went around the world, reaching Omaha, where a member of the family lives. The family considers it a relic and will keep it traveling as long as there is a member of the family living to send it to. It bears a proper inscription, and each recipient adds a little to it each time.

IRISH CONTROL THE TRADE.

Horseshoers in New York City Are Still Principally of That Nationality.

In the last report of the police department, filed with the comptroller, there is given a full list of those who, during the quarter preceding, did horseshoeing for the department. Of the two dozen names on the list all but two are Irish, says the New York Sun.

While in nearly every other trade in New York city there has been so lively a competition as practically to transform it, the ancient and honorable calling of horseshoer remains almost exclusively in strong Irish hands. The gow or blacksmith is an Irishman here, though the green grocer long ago gave place to the German corner groceryman.

German barbers have been largely superseded by Italian barbers, negro bootblacks by Italians, Italian fruit dealers by Greeks, Irish fish peddlers by Russians and Scotch by Swedish carpenters.

There would appear to be something about the work of the horseshoer which is very attractive to the Irish mechanic.

Sickening, Shivering Fits

Of Ague and Malaria, can be relieved and cured with Electric Bitters. This is a pure, tonic medicine; of especial benefit in malaria, for it exerts a true curative influence on the disease, driving it entirely out of the system. It is much to be preferred to Quinine, having none of this drug's bad after effects. E. S. Munday, of Henrietta, Texas, writes: "My brother was very low with malarial fever and jaundice, till he took Electric Bitters, which saved his life." At all druggists. Price 50c., guaranteed.

USES OF FIRE ENGINES.

In England They Are Brought Into Effect in a Variety of Queer Ways.

A firm of fire-engine manufacturers in England builds many machines which are to be used for strange purposes. In the hop districts small fire engines are used to kill the pests of the vines. An acre and a half of hop plants can be thoroughly sprayed by one man in a day at an all-round cost of $1.88 an acre, including fuel for the engine. When one considers that the average yield to the acre of hops is supposed to be $170 and that this is often reduced 60 per cent. through a bad blight it is easy to see that in a hop garden of several hundred acres a great saving may result from the use of the fire engine.

Propulsion of boats by fire engines is not uncommon, the jet of water being thrown into the air and acting precisely as a punt pole pressed against the bottom of a shallow stream. Some floating fire engines were recently sent out from London to Alexandria, Egypt, for work on very shallow canals and these craft depended entirely upon the handling and maneuvering of the jets of water for their propulsion.

A remarkable use for the fire engine in agricultural England is sheep washing, which may be seen in progress on a large estate at Uxbridge, about 15 miles from London. There a little stream engine throws 100 gallons a minute on the fleece of each animal. Even horses are washed in a similar manner.

In some of the country mansions of England fire engines are kept, which can be driven by the ordinary electric lighting current when desired at a critical moment, or the fire engine will wash the ouside of the windows without endangering the lives of the servants.

NOVELTY IN FLOWER LINE.

Green Primrose Is the Latest Floral Curiosity That Has Come to Light in England.

The green rose is a very old and rather ugly "novelty" that creeps up afresh from time to time as a catchpenny attraction, and there are one or two other plants with green flowers that are usually more curious than attractive. A somewhat rare green-flowered Lenten rose, Helleborus viridis multifidus, is really rather good, but the ordinary form, Helleborus viridis dumetorum, is unattractive. The prettiest green-flowered rock plant is perhaps Hacquetia epipactis, a little alpine that flowers close to the ground, the bright, green-petaled blossoms, with pretty gold centers, being about the size of primrose blooms, and produced with us early in the spring before the strawberry-like leaves. Bupleurum ranunculoides is another alpine that the curious in green-flowered rockery subjects might try, but as it is a high alpine, its culture will be for careful gardeners only. The latest invention in the way of green-flowering varieties, says Ladies' Field, of London, is an addition to that familiar family, our own yellow primroses. It is called Novelty, and is described as a large and truly green-flowered form of the beautiful old wild primrose, a free bloomer and a strong grower.
